

"See why Luxaire Modulating Furnaces and the new Residential Communicating Control offer the highest efficiency and easiest installation in the industry"

Mid-City Supply Presents Luxaire Modulating Furnace Installation & Service

Setting The Performance Standard.™

The modulating gas furnace seminar systematically covers each furnace component to give the technician a thorough understanding of component operation within the system. Emphasis is placed on the furnace sequence of operation and measurement and diagnosis of various components. In addition, this class will cover ECM motor operation and diagnostics and the new Luxaire residential communicating control system. *This course is approved for NATE credit hours.*
